LEADING MANAGED INTERNET SERVICES PROVIDER

MyKris Limited, a company listed on the New Zealand Alternative Exchange (NZAX) on 10 January 2012, is the parent company of one of the leading companies in Managed Internet Service Malaysia. Its subsidiary, MyKRIS Asia was incorporated in 2001 when two (2) young Malaysian entrepreneurs were encouraged by the emergence of the Internet phenomenon and the knowledge economy to setup the company to provide broadband services and solutions for small and medium-sized enterprises.

MyKRIS Asia is a tier 1 full blown licensee of Internet Content & Services Provider (ICSP) awarded by Malaysia Communication and Multimedia Commission (MCMC) (Individual Licenses: NFP/I/2000/30, NSP/I/2000/31 and ASP/I/2000/77) specializing in offering Managed Broadband Services, one stop High Speed Internet Access (HSIA) services, Web-based Application Software and e-Commerce solutions.

Today, MyKris' subsidiaries have clients spreading across a broad range of industries ranging from media newspapers, manufacturing, hotels, online services companies, insurance, professionals, contents and applications providers, amongst others. MyKris' subsidiaries are amongst the very few service providers that are offering a Service Level Agreement (SLA) with guarantee service uptime of 99.3% to 99.9%.

This is our latest wan network concept tailored design by MyKris for enterprise which running on mission critical application
