Dear Mr. Chew and MyKris Team

Global Marketer Conference: Thank you

The Malaysian Advertisers Association (MAA) and I would like to say a big thank you to you and your team for the excellent services rendered for the recent MAA & WFA Global Marketer Conference on 17 March 2016 at Le Meridien.

The WIFI installed enabled the 450 delegates to live poll and post questions throughout the entire Conference day without any problems. The WIFI was stable and fast and the technical team was on hand to monitor the situation. The Press and the WFA staffers were also very satisfied with the Press WIFI that was set-up separately for them.

In fact WFA has commented that the WIFI set-up is one of the best they had in many years of Conferences. The excellent set-up is no doubt the result of the strong commitment and technical skills of Mr. Daniel Chew and supported by the competence and good client relationship of Mr. Aaron Kok. They are an exemplary team.

It has been a pleasure working with your team on this job and we look forward to working with them again in the near future.

Yours sincerely,

Margaret Au Yong
MAA President
